

One Time Pepto
Herda NIN

THE *time* HAS COME...

"As the 2013 breeding season begins, we continue to be overwhelmed by the support of those in the industry who have believed in and supported One Time Pepto. Our vision has been from the onset to establish his presence as a prominent sire in both the cutting and reined cow horse venues—and we feel blessed to have seen this dream come to fruition.

We will remain forever grateful to all of you who have made this possible.

In looking to the future, we now believe the time has come to open One Time Pepto's book to additional mares in the coming season."

"We look forward to sharing our dream."

—Jeffrey and Sheri Matthews
